SPRINGFIELD – The number of nonfarm jobs decreased over-the-year in all fourteen Illinois metropolitan areas in March, according to preliminary data released today by the U.S. Bureau of Labor Statistics (BLS) and the Illinois Department of Employment Security (IDES). The unemployment rate increased over-the-year in all metro areas. The official, BLS approved sub-state unemployment rate and nonfarm jobs series begins in 1990. Data reported prior to 1990 are not directly comparable due to updates in methodology.

“As the state moves through pandemic recovery and the economy begins to heal itself, the major focus remains on assisting claimants and providing support to those still impacted,” said **Deputy Governor Dan Hynes**. “IDES remains committed to administering benefits and providing job-matching services to individuals dislocated from their jobs as a result of the pandemic and eager to jump back into the workforce.”
